## **R.I.G. Modules - 402**

Mikal Harrsen, 2018

The modular R.I.G. shelving system is able to transform into any number of low profile furniture solutions suitable for the living room, study, entrance hall and dining room, including television stands, small tables for lighting, credenzas and low height bookcases.

To simplify: uniqueness vs. coordinated. A methodized precise concept, modelled on basic needs and the environment. R.I.G. is a system and, as such, it is both starting and landing point. In the middle of the process, choices are dictated by creativity, taste and needs.

In the living area, R.I.G. can be arranged into bookcases, tabletops, low furniture for audio and video systems. It can decorate the walls or left freestanding in a room. Combines smart quality of modularity with the aesthetic value of each independent elements, because of the unique structural lightness and materials that furnish the accessories: shelves in different depths and contained modules.

### **DESCRIPTION**

The same modular system designed for the home now expands into the living area with a more specific use due to its unique versatility.

The module specifically designed for living rooms features coffered units and lowered shelves for hi-fi and TV systems.

Drawers with internal dividers and microfiber mats.

### **TECHNICAL FEATURES**

Frame in epoxy-polyester powder-coated solid steel, black finish

Feet and joints in brushed stainless steel.

Shelves in various materials: black oil treated CDF, 12 mm thick stone (white Carrara marble, Greystone marble, Gris du Marais marble, black Pietra d'Avola stone), black biplated CDF in Ecowood Xilo 2.0 veneer wood - planked sand, Ecowood Xilo 2.0 planked grey, Ecowood Xilo 2.0 striped black, smoked oak, natural oak.

Frame in steel with clear glass.

Units in black CDF covered with black CDF toning oil treated panels, biplated CDF wood veneer Ecowood Xilo 2.0 planked sand, Ecowood Xilo 2.0 planked grey, Ecowood Xilo 2.0 striped black, smoked oak, natural oak. Front in 12mm thick stone (white Carrara marble, Greystone marble, Gris du Marais marble, black Pietra d'Avola stone).

Internal accessories in black CDF toning oil treated.

Modules: H.48/402 L.1100/550 D.500 mm.

“This version is designed for living rooms and lounge areas, spaces of high comfort, where low horizontal furniture creates the setting. The new glass finish makes the R.I.G. Modules 402 sideboards an elegant décor thanks to the subtle exposure of the unit content.” M. Harrsen

## **SALVATORI**

Salvatori is an award-winning third-generation Italian design company specialising in natural stone. Founded in 1946, it is renowned for its innovative and elegant products created in its Tuscan headquarters just a few kilometres south of the famed Carrara marble quarries. From stunning textures for walls and floors, to bathroom items and products for the home such as tables, lighting, mirrors and decorative pieces, the Salvatori brand has become the global benchmark in the “design meets natural stone” field.

Flagship showrooms: Milan, London, Zurich

salvatori.it

Partnership for exclusive use of Lithoverde® and textures for Boffi, De Padova and MA/U Studio products.

### PRODUCTS

#### Gris du Marais

Gris du Marais is a classic marble, characterised by its elegant dappled grey veining and warm, almost brown, undertones. Exclusive to Salvatori, its low absorption rate makes it an ideal choice for kitchens and bathrooms.

#### Pietra d’Avola

A rich chocolatey limestone, Pietra d’Avola is a dark, intense and elegant stone which can vary in shade from greyish-brown to almost black. A hardwearing stone, it is ideal for interior usage and high foot-traffic areas.
