

**NAME /** Antibes, walk-in closet

**DESIGN /** Piero Lissoni + CRS Boffi/2015 - 2017

**INSPIRATION /** The walk-in closet becomes a place of elegance and refinement. Leathers or microfiber fabrics cover the surfaces to make the cabin even more sophisticated. Precious glasses close the structure, illuminating and protecting the interiors.

**DESCRIPTION /** The Boffi walk-in closet with single side panels is now completed with finished side panels in glass and covers made of rich leathers or microfiber fabrics for both shelves and units.  
Doors with frame in aluminium and glass or covered with same leathers.

**TECHNICAL FEATURES /** Structure in melamine-coated panels, thermo-treated larch wood, natural or matt white elm wood, 22 mm thick.  
Shelves (35 mm. thick) made of melamine-coated panels, thermo-treated larch wood, natural or matt white elm wood.  
Structural frame in anodised aluminium bronze + glass.  
Doors and finished side panels: panels in honeycomb 25 mm. thickness or frame in aluminium and glass.  
New proposed finishes: leather or microfiber cover on request.  
Tekna handle in anodised aluminium bronze (for glass or leather covered frame)  
Drawer units made of melamine-coated panels, same colours as cabinets with drawers coverable in leather or microfiber. Everything 14 mm. thick.
