

- NAME /** K21
- DESIGN /** Norbert Wangen / 2017
- INSPIRATION /** The K collection never runs out of new sophisticated possibilities. On one hand K20 maintains its unique features, on the other it expands its offering thanks to different wall solutions, new finishes and additions for the Upper Units panelling system, and wooden peninsulas. A brand new design evolution, all in the name of hospitality and custom-made functionality
- DESCRIPTION /** K21 a cult kitchen now becomes even more flexible and can be integrated with new wall solutions, now offered in sophisticated finishes.
Integration with the mobile system Upper wall and Upper steel hood.
Particular attention is on ergonomics: a minimal and comfortable door opening is guaranteed by the particular section of the handle, together with internal tilt of the worktop to its surface.
New wood peninsulas are integrated in the unique worktop, offering additional work or convivial areas.
