

**NAME /** Solstice

**DESIGN /** Piero Lissoni / 2017

**INSPIRATION /** Each mirror emerges in continuity from the wall, as frame and support fade into each other and draw both perimeter and thickness. The collection is composed therefore by shaped reflections with regular and irregular forms. In group or alone, every piece meets both collective and individual taste.

**DESCRIPTION /** Series of mirrors with support in black neutral material characterized by different shapes (oval - round - triangular) and by a perimetrical chamfer towards the wall obtained in the thickness of the support.  
Mirror frontally applied replicating the shape of the support.

**TECHNICAL FEATURES /** Support material: coloured MDF in mass black painted transparent opaque.  
Mirror Float th.6 mm.  
Dimensions: Oval 600x1100, 600x1600, 1000x1500 mm; round Ø 1000 mm; triangular 752x1200 mm.

"The word speaks. Picture of a universe of mirrors or a universe of stars, that are part of the mirrors. Punctuation are shaped reflections, with regular and irregular forms. Solstice emerge in continuity from the wall, because the frame and support fade into each other, drawing simultaneously perimeter and thickness." P. Lissoni
