

- NAME /** Zone
- DESIGN /** CRS Boffi / 2017
- INSPIRATION /** The bathroom system is now enhanced with a wider choice of combinations of elements, materials, colours and finishes, yet retaining its distinctive opening with coplanar sliding doors. A smart design that allows to obliterate the overall dimensions in the design phase and to have easier access to the inside of the unit.
- DESCRIPTION /** Bathroom system characterised by opening system with coplanar sliding doors. The under-mounted handle rail, with its minimal lines, can be produced in all finishes available for the doors, maintaining a single-material look. Possibility to insert top-mounted and some under-mounted washbasins from the Boffi collection.
- TECHNICAL FEATURES /** Units made in E1 class wood/ CARBP2 particles, covered in melamine paper graphite oak finish, white silk or natural elm.
