

NAME / Combine - kitchen

DESIGN / Piero Lissoni / 2018

INSPIRATION / Freedom of composition is the dictat for your very own Combine kitchen, whether linear, angular or zigzag. A new kitchen programme able to blend the compact kitchen to the traditional kitchen island, offering a selection of functional monoblocks in different sizes, worktops and extractable tables for fixed or extendible snack areas based on number of guests.

A wide range of materials and accessories designed to support the cooking and washing complete the system. The extremely light and thin door profiles allow the combination of the different elements, creating a design that resembles a three dimensional abstract painting.

DESCRIPTION / A kitchen programme characterised by simple monoblocks that can be combined together to create compact islands with separate specific functions: cooking, washing and preparation.

The characteristic 4-sided finishing of the monoblocks allows total freedom of composition, thus creating angular, zigzag compositions or linear with exclusive tables, positioned on the backside and able to offer compact or extensible dining areas.

The extra thin door makes the design lighter and more elegant.

The worktop has a particular section that includes and perfectly integrates the different functions of cooking and washing thanks the exclusive Boffi design taps, able to disappear in the thickness of the top through an up and down mechanism.

The system is enhanced by useful accessories for preparation, cooking and washing: chopping boards, supporting grids and containment trays, also useful for table service.

TECHNICAL FEATURES / Units in E1 V100 particle wood - coated with melamine papers in grey graphite oak and natural elm wood.

Modules h.790/720 - Plinth h.80 mm

Washing monoblock: h.915 L.1800-2400 D.650 mm.

Cooking monoblock: h.845 L.1200-1800 - 2400 D.900 mm.

Preparation monoblock: h. 915 L.1200-1800 D.650 mm.

Finishes for doors and 12 mm thick panels: wood veneer from the Boffi range - matt lacquer Ecolak and Metals from the Boffi range - Lasermat in range of Boffi colours - brushed anthracite grey aluminium - white Carrara marble – Lithoverde® Carrara and Pietra d'Avola stone.

Worktops: polished stainless steel, brushed Scotch Brite stainless steel - white Carrara marble - Lithoverde® Carrara and Pietra d'Avola.

Sliding tables in veneer wood, wood species from Boffi range.

"Combine is like a multifaceted game, with very simple elements, where areas of work and life are built in" P. Lissoni

SALVATORI + BOFFI

Salvatori and Boffi have long shared a passion for excellence and quality, an engrained spirit of innovation and, above all, an innate understanding of what makes great design. Now the two brands have teamed up in a partnership epitomising the best of Made in Italy. The collaboration sees Salvatori providing its proprietary stone products on an exclusive commercial base for Boffi's new kitchen and bathroom collections.

For decades Boffi has been considered the leader in its field with its reputation for designing beautiful contemporary kitchens and bathrooms which stand the test of time whilst Salvatori is renowned for its innovative work in transforming natural stone into unique, elegant textures and products.

Drawing on their respective areas of expertise, the result is a collection which perfectly fuses craftsmanship with technology, natural stone with cutting-edge man-made materials and practicality with aesthetics.

SALVATORI

Salvatori is an award-winning third-generation Italian design company specialising in natural stone. Founded in 1946, it is renowned for its innovative and elegant products created in its Tuscan headquarters just a few kilometres south of the famed Carrara marble quarries. From stunning textures for walls and floors, to bathroom items and products for the home such as tables, lighting, mirrors and decorative pieces, the Salvatori brand has become the global benchmark in the "design meets natural stone" field.

Flagship showrooms: Milan, London, Zurich

salvatori.it

Partnership for exclusive use of Lithoverde® and textures for Boffi, De Padova and MA/U Studio products.

PRODUCTS

Pietra d'Avola

A rich chocolatey limestone, Pietra d'Avola is a dark, intense and elegant stone which can vary in shade from greyish-brown to almost black. A hardwearing stone, it is ideal for interior usage and high foot-traffic areas.

Bianco Carrara

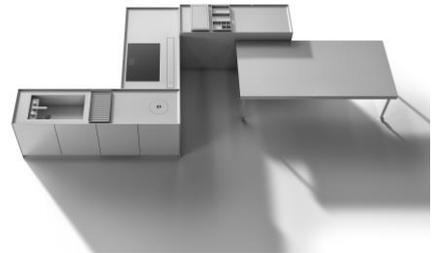

The classic marble, sought after the world over, remains a perennial favourite and is generally considered the marble "par excellence". Whilst it is, as the name suggests, predominantly a white stone, Bianco Carrara contains beautiful veining in a variety of delicate shades of grey.

TEXTURES

Lithoverde®

A product which contributes to saving the environment by reusing stone offcuts which would otherwise be simply thrown away, Lithoverde® is the world's first recycled stone texture. 99% composed of discarded stone, it not only offers an environmentally-friendly solution, but also ensures that there is no compromise when it comes to aesthetics.
