

GARDEROBIER

Lovorika Banovic, 2018

A valet stand and a partitioning system in one. The flexible, thin metal structure frames everything on display. The varied heights allow movement, while the integrated circular plate serves as a functional tray.

DESCRIPTION

An elegant metal valet with articulated doors available in two heights and a functional vide-poche table/seat.

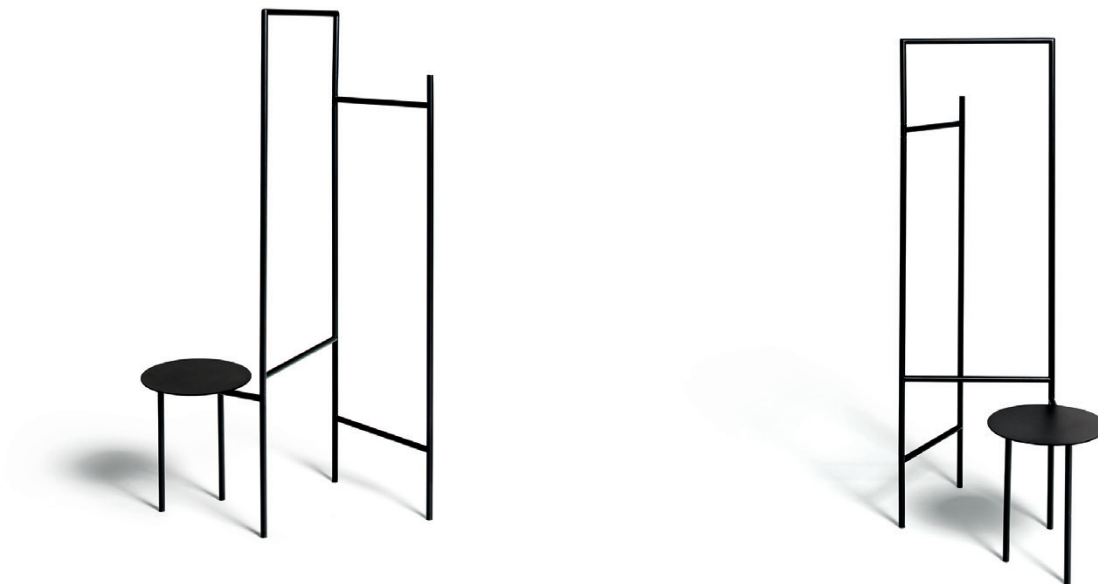

TECHNICAL FEATURES

Frame in epoxy-polyester powder coated steel, fine embossed black colour.

Feet and joints in thermoplastic.

Dimensions: H.149 cm, L.120 cm (fully open) D.31,5 cm

Vide-poche table/seat d.31,5 cm.

“Garderobier is a furniture piece with a clear geometry and delicate proportions.

In its rigorous minimalist expression and simple material, it is a delicate, refined and carefully considered fusion design between storage and pause. It is slender in form and material but rich in storytelling and interpretation.

Garderobier folds in and out.” L. Banovic
