

NAME / L14 – L18 – washbasins

DESIGN / Norbert Wangen / 2018

INSPIRATION / Distinctly minimal, L14 and L18 do not compromise the highly appreciated detail of the original L10 washbasin and its iconic blunted edges that emphasise the reduced thickness. Available also with double washbasins.

DESCRIPTION / Resonating the aesthetics of the original L10, the L14 and L18 washbasins reproduce the characteristics of a very minimal and sculptural washbasin with more generous dimensions, allowing two people the flexibility to use it simultaneously.

The two washbasins are characterised by a block in solid wood with a single or double basin, partially excavated and with a back space for the taps. The water drain is covered in the same material.

They can be fixed to the wall thanks to stainless steel brackets integrated into the thickness of the block or available also as top-mounted.

TECHNICAL FEATURES / In white Carrara marble or Pietra d'Avola stone.

"The idea behind the L10 washbasin is a thin stone carved out of the water. An old photo ...not the usual basin, the water flows over the flat and elegant stone, the stone so thin on the edge is almost fragile and the water is its constant power" N. Wangen
